

*Heidelberg Neural Therapy Meetings*

## Therapy with local anesthetics – science and skills.

July 3–4th and July 24–25th, 2015

Women's Hospital, Heidelberg University

Im Neuenheimer Feld 440, 69120 Heidelberg, Germany

July 3-4th, 2015  
July 24-25th, 2015

Powered by ICMART, DGfAN, ÖNR, DÄGfA and other prestigious international neural therapy and pain societies.

The Heidelberg University Neural Therapy Education & Research Group (The HUNTER Group)

Info & registration: [www.hunter-heidelberg.com](http://www.hunter-heidelberg.com)

## procaïn-loges® 1% :

Das PRO für die Neuraltherapie

Als 2 ml  
Ampullen  
sowie als 100 ml  
Stechflasche  
erhältlich

procaïn-loges® 1 % Injektionslösung. 1 ml Injektionslösung enthält den Wirkstoff: Procainhydrochlorid 10 mg. Die sonstigen Bestandteile sind: Natriumchlorid, Wasser für Injektionszwecke, Salzsäure 10% zur pH-Wert-Einstellung. procaïn-loges® 1% Injektionsflaschen. 1 ml Injektionslösung enthält den Wirkstoff: Procainhydrochlorid 10 mg. Die sonstigen Bestandteile sind: Hilfsstoffe: Stickstoff, sterilfiltriert. Sonstige Bestandteile: Natriumchlorid, Salzsäure 25% zur pH-Wert-Einstellung, Wasser für Injektionszwecke, Natriummethyl-4-hydroxybenzoat 2,25 mg, Natriumpropyl-4-hydroxybenzoat 0,25 mg.

## Greeting

*Greeting by Prof. Dr. Dr. h.c. Manfred Zimmermann,  
emeritus professor of physiology at Heidelberg University*

Dear Participants,

neural therapy was born more than 100 years ago from the observation that short-acting local anesthetics often bring about long-term analgesia that is frequently accompanied by anti-inflammatory and other curative effects. Yet despite the fact that it is widely practiced, neural therapy remains a controversial topic.

To this day there is no standardized documentation of therapy results and no modern scientific substantiation that includes the complex interaction between the neural system and the immune system.

Local anesthetics have a wide range of molecular effects:

In addition to blocking nerve impulses, they also interrupt harmful regulatory circuits in the central nervous system and the autonomic nervous system, inhibit the release of proinflammatory neuropeptides such as substance P and CGRP by sensory nerves, act on endogenous opioids and endocannabinoid receptors etc. The Heidelberg HUNTER Group seeks to advance these findings and set new standards in their application and interpretation.

I would like to welcome you to the second Heidelberg Neural Therapy Meetings 2015 and hope you will gain new insights and learn new skills that will enrich your work as a physician.

Prof. Manfred Zimmermann

*Greeting by Prof. Dr. Thomas Strowitzki  
Women's Hospital, Heidelberg*

This marks the second year that Heidelberg Women's Hospital is hosting the NT Meeting. In the wake of the great success of the 2014 meeting, the HUNTER Group has decided to focus this year's conference on advanced training seminars.

Neural therapy, i.e. therapy using local anesthetics, is a future-oriented area of medicine with great potential. This is demonstrated by the outstanding speakers who will be teaching the practice-oriented seminars in Heidelberg. Heidelberg Women's Hospital offers ideal conditions for this conference:

The hospital boasts modern, well-equipped seminar rooms, short distances between venues and enough space for exchange and discussion.

I wish the organizers a successful meeting in the rooms of the Women's Hospital, and the recognition that this modern topic deserves.

Prof. Dr. Thomas Strowitzki

## Invitation

Get to know the fascinating world of therapy with local anesthetics (LA). Tune in with famous previous practitioners of this therapy such as Sigmund Freud, August Bier, J.L. Corning, and J.J. Bonica and F. + W. Huneke – all of whom investigated and used LA for different indications of chronic pain and disease.

Current research has yielded fascinating new insights into the molecular mechanisms of LA and their anti-inflammatory, anti-nociceptive, and perfusion-inducing properties. Whether you already use LA for therapy or are a novice – come to Heidelberg and enhance your knowledge to be able to offer better treatment to your patients and become an expert in your field.

The first meeting was held in July 2014 to commemorate the 80th birthday of Prof. Manfred Zimmermann, Heidelberg's world-famous senior researcher in the field of the pathophysiology of pain. The forthcoming 2nd meeting will offer you the chance to acquire excellent practical skills in neural therapy. International experts will present this therapy to you on the basis of scientific research conducted at Heidelberg University and other institutions. Meet experts and practitioners and crown your efforts with a Heidelberg University Degree of neural therapy.

Last but not least, enjoy the Heidelberg Castle Summer Festivals in the evening.

Register now and get a 5 % early bird discount. Learn more on [www.hunter-heidelberg.com](http://www.hunter-heidelberg.com).

Welcome to beautiful Heidelberg! We look forward to seeing you in July 2015.

Stefan W. Weinschenk, M.D.  
On behalf of the HUNTER Group Heidelberg

**NEW: Courses in English**

**What is neural therapy?**

**What are the benefits of neural therapy?**

**Target group:  
Physicians working in hospitals and private practices**

**Program | July 3–4<sup>th</sup>****1st weekend****Friday, July, 3<sup>rd</sup> 2015**

Time	Basics of neural therapy 1
2:30–6:30 p.m.	<b>Basic course 1</b> (15 TU)
7:30 p.m.	Cultural program

**Saturday, July, 4<sup>th</sup> 2015**

Time	Basics of neural therapy 1
8:30 a.m. - 1:15 p.m.	<b>Basic course 1</b> (continued)
	Lunch break
2:30 - 6:30 p.m.	<b>Basic course 1</b> (continued)
7:30 p.m.	(optional) Dinner

Fees	regular	reduced	student
► 15 units (45 min)	495 €	395 €	260 €
► 30 units (45 min)	895 €	695 €	450 €

**EARLY BIRD DISCOUNT:**

- **5%** if you register by Monday, May 25<sup>th</sup> 2015  
(date of receipt by the conference office)

**Program | July 24–25<sup>th</sup>****2nd weekend****Friday, July, 24<sup>th</sup> 2015**

Time	Basics of neural therapy 2
4:30 - 8:30 p.m.	<b>Basic course 2</b> (15 TU)
9:00 p.m.	Cultural program

**Saturday, July, 25<sup>th</sup> 2015**

Time	Basics of neural therapy 2
8:30 a.m. - 1:15 p.m.	<b>Basic course 2</b> (continued)
	Lunch break
2:30 - 6:30 p.m.	<b>Basic course 2</b> (continued)
7:30 p.m.	(optional) Dinner

**Online registration and detailed program:**  
[www.hunter-heidelberg.com](http://www.hunter-heidelberg.com)

TU = teaching units (45 minutes)

## Floor plan

### Basic courses

- Basic courses 1 and 2 are consecutive courses that comprise 15 teaching units (TU) each. They are based on the curriculum of the German Association for Acupuncture and Neural Therapy (DGfAN) and are recognized by the association.
- As the topics taught in basic courses 1 and 2 are related, enrolling in both courses is recommended, but not required. Each course can be booked independently.
- **Outlook: Basic courses 3 and 4 are scheduled for July 2016.**

## General description of workshops

### All workshops have the same objective:

We want our participants to gain new insights and experience aha moments in a relaxed and friendly atmosphere, be able to immediately put into practice what they have learned and have fun socializing with their colleagues both during and after the official part of the program.

### Our quality promise:

We offer advanced training that is consistent with university standards. We place special emphasis on providing evidence of efficacy. We are known for clear and understandable instructions. The course instructors are highly qualified international experts with many years of practical experience in LA therapy.

### 1. NTh Basic Course 1

Principles of therapy with local anesthetics (neural therapy)

*Instructor: Dr. Siddhartha Popat, M.D, Nicolas Stamer, M.D. and colleagues*

**Content:** Definition of neural therapy, treatment levels (local, segment, regional, interference field, systemic); description of the effects and side effects of the therapy with local anesthetics; indications and contraindications; medical history and examination from the perspective of reflex medicine and regulatory medicine; technical requirements and tools; simple injection techniques for beginners. Injections in the ENT field are also part of the basic course 1.

**Learning targets:** Recognizing and applying the principles of LA therapy; participants may discuss their own experiences, e.g. with intracutaneous injections (quaddels) in their daily practice, in the workshop.

**Target group:** Medical practitioners and dentists of all specialties working in hospitals or doctor's offices. Medical and dentistry students.

## General description of workshops

### 2. NTh Basic Course 2

Application of LA therapy (neural therapy)

*Instructor: Dr. Petja Piehler and colleagues*

**Content:** Practical application of neural therapy, significance of functional chains; neural therapy as a complementary method to pharmacological pain therapy, possibilities and limits; new findings and theories on the concept of "interference fields"; additional harmless injection techniques; participants may bring and discuss their own cases.

**Learning targets:** Understanding the basic neuroanatomical effects of both methods; learning simple techniques for quick success.

**Target group:** Medical practitioners and dentists of all specialties working in hospitals or doctor's offices; medical and dentistry students in the clinical phase of their studies.

### German lessons:

During this meeting, we also offer special lessons on neural therapy in orthopedics, gynecology, dentistry etc. in German. To learn more, please see the German program version on [www.hunter-heidelberg.com](http://www.hunter-heidelberg.com).

## Heidelberg – favorite destination in Germany

Whether you come to Heidelberg on business or as a tourist, you will find it is a city that – in the words of J.W. Goethe, one of Germany's greatest writers – has "something ideal" about it. Asked to name their favorite destination in Germany, visitors from abroad consistently choose Heidelberg Castle. And no fewer than three million people come to Heidelberg every year, drawn by the historical flair of this university city, with its stunning setting, wide range of entertainments, superb shopping, and restaurants to meet every taste. It is a dynamic city that is constantly developing – in terms of architecture, business activities and ideas.

Nothing is very far away in Heidelberg – and there are so many sights to discover and experience! Heidelberg Castle and the extensive Castle Gardens are a magnet for visitors and the City's top attraction. Walk up one of the many paths – or take the Philosophenweg (Philosopher's Way) you have a breathtaking view of the city, the river and the surrounding hills.

Back in the city you will find a huge variety of historic buildings, impressive memorials and elaborate fountains, all of which have fascinating tales to tell. Enter the Old Town and you find yourself embarking on a journey back through history.

As you stroll through Heidelberg you will also be tempted to stop off in some of the many public squares and gardens – little oases of green that are popular meeting places for people of all ages.

Throughout the year there are different regular festivals and events hosted and organized in Heidelberg. Between June and August 2014 the picturesque castle ruins provide the backdrop for the Heidelberg Castle Festival. Enjoy an unforgettable Castle Festival evening on Friday, 3<sup>rd</sup> July, 2015 together with the speakers.

Heidelberg offers accommodation options suited to all tastes and budgets. Many are centrally located (<http://www.heidelberg-marketing.com/hotels/hotel-booking.html>).

We have reserved hotel rooms for you at the NH Hotel Heidelberg (see p. 13).

## General information *Registration, confirmation, cancelation*

### Attendance fees

Fees for courses in English	regular <sup>2)</sup>	reduced <sup>1) 2)</sup>	student <sup>3)</sup>
15 TU	495 €	395 €	260 €
30 TU	895 €	695 €	450 €

<sup>1)</sup> Reduced fee for members of partner organizations and for medical personnel of the universities of Heidelberg and Mannheim. This membership discount can be used only once, even in the event of multiple eligibility.

<sup>2)</sup> Medical and dentistry students of all universities who can present a valid certificate of enrollment for the summer term 2015.

#### EARLY BIRD DISCOUNT:

- 5% if you subscribe by Monday, May 25<sup>th</sup> 2015 (receipt by the conference office)
- Early bird discounts apply to all fees and can be used only once.

### Services

The following services are included in the attendance fee: workshops and course material, snacks and beverages, certificate of attendance, credit certificate for the partner organizations (page 17).

On Saturdays a hot lunch is offered in the lobby. Participants can pre-order this lunch at the time of registration for the special price of 10 € (usually 15 €).

### Registration, payment, confirmation, cancelation

Your registration is not confirmed until the full fee is paid by credit card or bank transfer. Registrations are processed on a first come, first served basis. If you cancel your registration on or before April 3, 2015, we will charge a handling fee of 25 €. If you cancel by June 16, 2015, we will refund 50% of the attendance fee. After this date, a refund is no longer possible, unless you can name another person who will attend in your place and use your booked arrangement. In this case, we will charge a handling fee of 25 € for the preparation of documents in another name. If you have special wishes with regard to billing, please let us know at the time of your registration. We will charge a handling fee of 25 € for the rewriting of invoices.

## General information *Registration, confirmation, cancelation*

The prices are based on the rates currently charged by the service providers and the VAT in force at the time of the conference. The conference may be subject to changes outside our control.

### Legal provisions, liability

This conference is organized by Heidelberg University, The HUNTER Group.

If a third party enters into the contract, the party and the participant shall be jointly liable to the organizer as co-debtors for the invoice amount and the booking change fees. The organizer's liability for damage is limited to triple the attendance fee/invoice amount, provided that the damage is not intentional or due to gross negligence.

The organizer is responsible for the academic program. The attendance fees for the conference are collected by the Congress and Conference Management of Heidelberg University as trustee on behalf and for the account of the organizer. Bookings are made based on the General Terms and Conditions as set forth above. Oral agreements are not binding, unless they are confirmed in writing.

### Accommodation

We have reserved hotel rooms for you at the NH Hotel Heidelberg, Bergheimer Straße 9,1 from July 3rd to 4th and July 24th to 25th.

### The conference rates are as follows:

Single room including breakfast: 112,55 €

Double room including breakfast: 132,45 €

### You can book your room either online or via phone:

+49 30 2238 0233 / +49 6221 1327-0

+800 0115 0116

or E-Mail: [reservierungen@nh-hotels.com](mailto:reservierungen@nh-hotels.com)

### Reference: Heidelberger Curriculum Neuraltherapy 2015, Heidelberg

The reservation deadline will be June 5th, 2015 for the weekend July 3rd and 4th and June 26 for the weekend July 24th to 25th. After these dates rooms and rates are based upon availability.

**Online registration:** [www.hunter-heidelberg.com](http://www.hunter-heidelberg.com)

**By fax:** +49(0) 6221 54-2162

**By email:** [unikt-kongresse@zuv.uni-heidelberg.de](mailto:unikt-kongresse@zuv.uni-heidelberg.de)

## Disclaimer of liability

The organizer does not accept liability for changes of the program or of speakers and for rescheduling or cancelation of events.

## Certificates and credits

### Credit points for advanced training of the German Medical Association

**Certificates for advanced medical training:** An application for CME certification of 40 TU has been submitted to the Baden-Württemberg Medical Association (valid for all of Germany).

### Recognition of attendance by the partner organizations

*(as in February 2015):* The partner organizations grant credits for attendance of NT Meeting courses. Other forms of recognition are planned.

Members of the partner organizations are eligible for a discount on the attendance fee (see page 12).

### Attendance of the Heidelberg NT Meeting is recognized by the partner organizations as follows:

#### Deutsche Gesellschaft für Akupunktur und Neuraltherapie (DGfAN)

The neural therapy curriculum with examination and certificate comprises 4 basic courses of 15 TU each and six master courses of 10 TU each, i.e. 120 TU in total. Both of the Heidelberg basic courses are fully credited for the DGfAN curriculum.

#### Pain Therapy Curriculum

**DGS:** The DGS cooperates with the Medical Associations to offer an advanced training course entitled "Spezielle Schmerztherapie" (specific pain therapy) that comprises 8x10 TU. For the Heidelberg Curriculum (headed by Prof. Zimmermann), 10 or more TU at the Heidelberg NT Meeting are credited as one course day (10 TU).

#### Deutsche Ärztesgesellschaft für Akupunktur (DÄGfA)

##### NATUM

The lecture and workshops are credited toward the "Ganzheitliche Frauenheilkunde" (Holistic Gynecology) certificate as one course per half-day, i.e. as a maximum of 4 NATUM courses.

##### ÖNR

The curriculum of ÖNR for the "neural therapy" diploma of the Austrian Medical Association with examination comprises 8 courses of 15 TU each.

The entire Heidelberg NT Meeting is credited as one course.

## The HUNTER Group [www.hunter-heidelberg.com](http://www.hunter-heidelberg.com)

### What is neural therapy?

Neural therapy is the administration of undiluted local anesthetics for diagnostic and therapeutic purposes. Although it has been known since 1884 and is practiced extensively all over the world, little research has been conducted on this therapeutic method. Typical indications are chronic pain, chronic functional disorders, unspecific illnesses, disorders of the autonomic nervous system and chronic inflammation.

More information in a review from 2012:

[www.hunter-heidelberg.com/review](http://www.hunter-heidelberg.com/review)

### The HUNTER Group

The HUNTER Group (Heidelberg University Neural Therapy Education and Research Group) is an interdisciplinary work group of Heidelberg University founded in 2011. Its honorary chairman is Prof. Manfred Zimmermann.

#### The group consists of members of the following departments:

- Department of Anesthesiology, Heidelberg University Hospital
- Women's Hospital, Department of General Gynecology and Obstetrics
- Women's Hospital, Department of Gynecological Endocrinology and Fertility Disorders
- Department of Internal Medicine (Krehl Clinic)
- Kirchhoff Institute for Physics (KIP)

#### The aims of the HUNTER Group are:

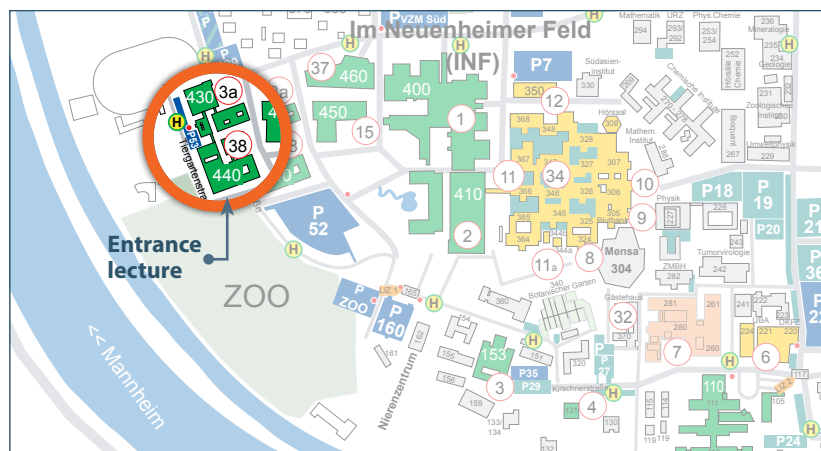

- Providing excellent training
- Scientific studies on the principles and clinical application of neural therapy
- Promoting LA therapy within Heidelberg University Hospital
- Interdisciplinary cooperation
- Public relations activities in cooperation with the associations for neural therapy and pain therapy

The HUNTER Group

Heidelberg University Neural Therapy Education and Research Group

## How to find us | Site plan | Parking

### By car

From the A5 Autobahn, turn off at *Autobahnkreuz Heidelberg* and follow the A656 to Heidelberg. If you are coming in on the A6, turn off at *Autobahnkreuz Mannheim* to follow the A656. At the end of the Autobahn, turn left and follow the signs to *Neuenheim/Universitätsklinikum*, then after approx. 100 m turn right into *Vangerowstraße* and follow the *Unikliniken* signs north over *Ernst-Walz-Brücke* to cross the Neckar. You are now on *Berliner Straße*, with the *Neuenheimer Feld Campus* to your left.

At the **third** light (tram stop *Technologiepark*), turn onto *Im Neuenheimer Feld* and follow this street approx. 1 km until you reach the zoo. Turn left into parking lot 52 *Medizinische Klinik*. Follow the footpath 100 m to the **south entrance of the lecture wing** of the Women's Hospital.

### By public transport

Take tram line 21 or 24 from the main railroad station to the stop *Technologiepark*: To change to bus line 31 or 32, follow the street into *Neuenheimer Feld*; after approx. 30 m you will see the bus stop on the right side of the street.  
Bus stop *Jugendherberge*: The bus stops are located directly in front of the entrance to the lecture wing.

### Parking

Parking lot P52 (directly in front of the entrance to the lecture wing), parking garages P 200, P 160, P 699
