2nd Heidelberg Symposium

Multimodal and innovative therapy concepts for head and neck tumors: Carcinomas of the oral cavity

Saturday, 26th November 2011
9:00 am - 6:00 pm
Kopfklinik, Heidelberg

Contact
Mrs. Sabine Benecke
Secretary, Department of Otolaryngology, Head&Neck Surgery

Directions sketch

Kopfklinik
Im Neuenheimer Feld 400
69120 Heidelberg

Speakers
Prof. Dr. H. A. Bier (Department of Otorhinolaryngology, Head&Neck Surgery, Technical University – Munich)
PD Dr. P. Federspil (Department of Otorhinolaryngology, Head&Neck Surgery, Heidelberg)
PD Dr. K. Freier (Department of Oral and Maxillofacial Surgery, Heidelberg)
Prof. Dr. Dr. J. Hoffmann (Department of Oral and Maxillofacial Surgery, Heidelberg)
F. C. Holsinger, M. D., F.A.C.S., M.D. Anderson Cancer Center, Department of Head&Neck Surgery, Houston, Texas
Prof. Dr. D. Jäger (Department of Medical Oncology, NCT – Heidelberg)
Prof. Dr. Dr. J. Debus (Department of Radiooncology, Heidelberg)
Dr. H. U. Klapper (Department of Dental Prosthetics – Section Surgical Prosthetics and Epithetics, Leipzig)
B. Nussenbaum, M.D., F.A.C.S., (Washington University School of Medicine in St. Louis, Department of Otolaryngology, Head&Neck Surgery)
Prof. Dr. Dr. h.c. P.K. Plinkert (Department of Otorhinolaryngology and Head&Neck Surgery, Heidelberg)
PD Dr. C. Simon (Department of Otorhinolaryngology and Head&Neck Surgery, Heidelberg)
Prof. Dr. G. Strauss (Department of Otorhinolaryngology and Head&Neck Surgery, Leipzig)
Prof. Dr. A. Sesterhenn (Department of Otorhinolaryngology and Head&Neck Surgery, Marburg)
Dr. N. Stuhmann (Department of Otorhinolaryngology and Head&Neck Surgery/Division for Speech Pathology, Heidelberg)
Prof. Dr. J. Vermorken (Department of Medical Oncology, University Hospital Antwerp, Belgium)
Dear Colleagues,

It is a great pleasure for us to invite you to the 2nd Heidelberg Symposium “Multimodal and innovative treatment strategies in head and neck cancer”. This year emphasis will be on oral cavity cancer. With the experience of the 1st symposium in 2007 we are convinced that we will all spend a highly interesting day, full of intensive discussions.

This year’s meeting is conducted by the “Center for Head and Neck Oncology”, a novel institution of the University of Heidelberg and National Cancer Center (NCT) that emphasizes multidisciplinary treatment and high standard of care for our head and neck cancer patients. Regional experts will join the international faculty to widen/boost intellectual exchange.

The program will cover diagnosis, treatment and rehabilitation of patients with cancers of the oral cavity. Topics will include surgical treatment strategies and reconstruction, but also aspects of radiation therapy, medical and immunotherapy. You will hear on aspects of rehabilitation, including prosthetics. Furthermore, there will be a section on surgical innovations. Regional and international experts in the field will report on the applicability of the da Vinci robotic system in various areas of surgery including the head and neck region.

Join us in Heidelberg - not only for scientific information but also to meet friends and find new ones. We are sure that you will have a nice time and are looking forward to having you here.

Prof. J. Debus  
Prof. J. Hoffmann  
Prof. D. Jäger  
Prof. P. K. Plinkert

### Program

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 09.00 | Welcome remarks  
|       | Prof. P. K. Plinkert, Prof. J. Hoffmann, Prof. D. Jäger, Prof. Dr. J. Debus |
| 09.10 | Imaging in oral cavity cancer patients  
|       | PD Dr. S. Rohde |
| 09.30 | Treatment of oral cavity cancer from the perspective of the otolaryngologist  
|       | Prof. P. K. Plinkert |
| 09.50 | Key note lecture: Surgical therapy and reconstruction of patients with oral cavity cancers  
|       | B. Nussenbaum M.D., F.A.C.S. |
| 10.20 | Reconstruction of the mandible  
|       | Prof. J. Hoffmann |
| 10.40 | The role of radiotherapy in the treatment of oral cavity cancer  
|       | Prof. Dr. J. Debus |
| 11.00 | Coffee Break |
| 11.30 | Key note lecture: Multidisciplinary strategies in the treatment of oral cavity cancer  
|       | Prof. J. Vermorken |
| 12.00 | HPV - Is there any change in therapy?  
|       | PD K. Freier |
| 12.20 | Critical remarks on systemic therapy approaches for oral cavity cancer  
|       | Prof. H. Bier |
| 12.40 | Lunch |
| 13.30 | Speech and swallowing rehabilitation in oral cavity cancer patients  
|       | Dr. N. Stuhrmann |
| 13.50 | Role of prosthodontics in the rehabilitation of oral cavity cancer patients  
|       | Dr. H.U. Klapper |
| 14.10 | Rehabilitation of perioral defects  
|       | PD Dr. P. Federspil |

**Surgical Innovations – The da Vinci robotic system**  
Moderation: Prof. P. K. Plinkert

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
</table>
| 14.30 | Telemanipulation in head&neck surgery  
|       | Prof. G. Strauss |
| 14.50 | Endoscopic approaches in head&neck surgery  
|       | Prof. A. Sesterhenn |
| 15.10 | Applications of the da Vinci robotic system in head&neck surgery  
|       | PD C. Simon |
| 15.30 | Experiences with TORS (transoral robotic surgery) for head&neck cancer patients  
|       | F. C. Holsinger M.D., F.A.C.S. |
| 16.00 | Coffee Break |

**Round Table – Tumor Board**  
Moderation: PD C. Simon
