

# TRENDS IN NUTRITION EPIDEMIOLOGY 22 – 26 August 2022

## **Course Evaluation**

How interactive and applied was the course for you?

What kind of thematic and methodological expertise did you gain from this summer school?

What was the benefit that you got from the presentations of the nutrition research clusters in Germany?

### What was the benefit for you from the social programme?

Comments and suggestions to improve the quality of the summer school:

- Shift the dinner to the first evening to facilitate early exchange
- Extend the summer school to 2 weeks to facilitate more practice
