University Hospital Heidelberg

Global health in the 21st century

Celebrating 50 years
of Heidelberg's contribution

September, 13-15, 2012

Heidelberg Institute of Public Health
www.global-health-heidelberg.de

Welcome

Public Health and Tropical Medicine at the University Hospital Heidelberg celebrate an anniversary in 2012: Fifty years ago, in 1962, the Institute of Tropical Hygiene and Public Health was founded.

In the course of restructuring of the Medical Faculty, the Institute of Public Health and, within the Department of Infectious Diseases, the Unit “Clinical Tropical Medicine” were formed. Both have a strong position within the faculty today. A successful “off-spring”, who closely cooperates with our Institute, is the consulting firm “evaplan”.

In addition, we can celebrate decadal birthdays of the former and the current director of the institute Professor Hans-Jochen Diesfeld und Professor Rainer Sauerborn. Together they led the Institute for more than 40 years.

For these reasons we organize a symposium entitled „Global Health in the 21st Century – celebrating 50 years of Heidelberg’s contribution” in Heidelberg, from September 13 to 15, 2012.

We cordially invite you to this symposium and would be delighted to meet you in Heidelberg in September.

Heiko Becher
(for the organizers)

Program

Thursday, 13th September 2012

Location: Lecture Hall, Internal Medicine

17:00-17:30 Welcome addresses

17:30-18:30 Keynote speeches
