

# Julia Lohmann

## EDUCATION

PhD candidate, University of Heidelberg, Institute of Public Health, 2014 - present  
Diploma (BSc+MSc equivalent, psychology), University of Constance, 2010

## OVERVIEW

I am a PhD student with a background in social psychology and human resource management, and training and experience in mixed methods and implementation research in low- and middle income countries. My research interest is in understanding how health systems interventions such as performance-based financing affect health workers as people, focusing on issues of working conditions, motivation, and satisfaction, as well as on how these factors shape clinical and non-clinical behavior in the workplace. I have previously worked for the German Development Cooperation (GIZ) in the areas of M&E and HIV in Malawi and at GIZ headquarters in Bonn.

## LANGUAGES

German, English, French

## HONORS AND AWARDS

- Konrad-Adenauer Stiftung PhD fellowship, since 2014
- Third Global Symposium on Health Systems Research grant for conference attendance, 2014
