

# Danielle J. Wilhelm

## EDUCATION

PhD candidate, University of Heidelberg, Institute of Public Health, 2015 - ongoing

MD, Uniformed Services University of the Health Sciences, 2002

MScIH, University of Heidelberg, 2014

BA, Kansas State University, 1996

## OVERVIEW

I am a physician and doctoral student trained in quantitative and qualitative research methods and clinical medicine. My research focuses on how financing interventions affect the technical quality of maternal and neonatal health care through a mixed methods approach. In addition, I am examining how the implementation of programs affects the acceptability and adoption of financing interventions through qualitative methods. Before pursuing studies in public health, I trained as an Emergency Medicine physician and continue to work part-time in a clinical capacity. I apply this clinical knowledge in order to enhance my research in maternal and neonatal health care.

## LANGUAGES

English

## HONORS AND AWARDS

- University of Heidelberg, MScIH Graduation with Distinction, 2014
