SOCIAL PROTECTION PROGRAM

The postgraduate program in social protection offered face-to-face or via online platform, aims to enhance systems-level thinking and innovation capacity for postgraduates and professionals working in social protection systems. This unique and targeted mix of theoretical education and practical training will result in the dissemination of specialist knowledge, learning of impactful skill-sets and improvement of professional competencies in related fields, while building strong networks for future collaboration and strengthening the technical capacity of social protection systems in countries around the world.

The Short Courses are available as individual courses or as a package of E-Learning and Face-to-Face Short Courses in Social Protection (Hanoi, Vietnam or Heidelberg, Germany).

The Face-to-Face Courses will take place twice a year (2x in Hanoi and 2x in Heidelberg), every spring and autumn.

The CERTIFICATE IN SOCIAL PROTECTION includes a package of selected E-Learning courses and 5 Face-to-Face Courses.

The students have full flexibility to complete the online courses in their own pace and alongside their job duties. Only 5 weeks' presence time in Vietnam or Germany is required.

Total Price: 3.500 €

(Tuition fees do not include flights, travel costs, accommodation and other personal living expenses)

For further information and registration, please visit our website:
