### Who should attend

This course should be of interest to all professionals involved in orthognathic management – consultants and trainees in both orthodontics and maxillofacial surgery as well as maxillofacial technicians involved in technical planning.

### Course aim

To discuss and share current concepts of 3D planning in orthodontics and orthognathic surgery. This course includes a focused discussion on the complex role of the temporomandibular joint (TMJ) in orthognathic surgery. There will also be a special session presenting contemporary aspects of the Surgery-first-concept.
