Scientific Seminars
Winter Semester 2015/16

Time: Mondays, 17:15 h

Location: Main Lecture Hall
Institute of Pathology, Im Neuenheimer Feld
220/221
16.11.2015 New molecular and cell biological findings in rhabdomyosarcoma
Prof. Dr. B. Schäfer
Experimental Infectious Diseases & Cancer Research, University of Zurich
Host: Prof. Dr. A. Marx, Institute of Pathology, UMM

30.11.2015 Dissecting molecular Hepatocarcinogenesis: from sequential evolution to novel therapeutic models
Dr. J. Marquardt
Medical Center, University Mainz
Host: Prof. Dr. P. Schirmacher, Institute of Pathology, HD

14.12.2015 The role of the inflammatory microenvironment in liver cancer
Dr. M. S. Matter
Institute of Pathology, University Hospital Basel
Host: Prof. Dr. P. Schirmacher, Institute of Pathology, HD

11.01.2016 Molecular phenotyping via massively parallel quantification of translationally important proteins
Prof. Dr. R. Aebersold
Institute of Molecular Systems Biology, ETH Zurich
Host: Prof. Dr. P. Schirmacher, Institute of Pathology, HD

25.01.2016 Role of atypical IkappaB protein in cancer and inflammation
Prof. Dr. K. Schulze-Osthoff
Institute of Biochemistry, University Tübingen
Host: Prof. Dr. P. Schirmacher, Institute of Pathology, HD

Guests are very welcome!
Contact person: Dr. K. Woll (Tel 56 39186)
