

PROBASE

Die Deutsche Prostatakrebs Screening Studie

1st PROBASE Translational Research Symposium

Diagnostic and Prognostic Biomarkers for Early Detection of Prostate Cancer

February 16th, 2018 in Heidelberg, Germany

Be a part of the symposium, which will be a milestone in prostate cancer research!

We invite you to the

**1st PROBASE Translational Research Symposium on the topic of
“Diagnostic and Prognostic Biomarkers for Early Detection of Prostate Cancer”**

which will take place on **February 16th, 2018, in Heidelberg, Germany.**

Prostate cancer screening is further emerging. New imaging tools, new serum- and urine-based molecular biomarkers and new clinical data have been published in large screening trials over the last 5 years.

On February 16th, 2018 we will bring together all researches to discuss future strategies to define “the best” screening strategy.

REGISTER TODAY!

The German randomized risk-adapted screening trial PROBASE is running since 2014 and has accrued more than 30.000 men at age 45. The liquid biobank of this large trial presents an invaluable tool for further research. This symposium aims to discuss international collaboration and research projects based on this unique set of samples.

The German Cancer Aid (Deutsche Krebshilfe) which fully sponsors this large trial generously supports this symposium on prostate cancer screening based on the data and biomaterials of PROBASE.

Newest developments in early detection of prostate cancer will await the audience and we are looking forward to a lively exchange of ideas and experiences with participants from all over Europe and abroad, including early carrier clinical scientists from German Universities and basic researchers from the German Cancer Research Center (Deutsches Krebsforschungszentrum DKFZ) and the European Molecular Biology Laboratory (EMBL) in Heidelberg.

With our renowned international faculty and group of excellent speakers the symposium will be an important milestone in prostate cancer research.

You are invited to an outstanding event and we are looking forward to seeing you in Heidelberg!

Peter Albers
Nikolaus Becker
Jürgen Gschwend
Markus Hohenfellner
Markus Kuczyk

on behalf of the PROBASE Scientific Steering Committee

The symposium is completely funded by

Date and time

Friday, February 16th, 2018 – 9:00 am to 7:00 pm

Program

9:00 am - 2:00 pm: Plenary session and discussion
3:00 pm - 7:00 pm: PROBASE workshops

Registration

Registration fee: The symposium is free of charge.

Venue

Heidelberg University Hospital, Medizinische Klinik, Hörsaal (Lecture Hall),
Im Neuenheimer Feld 410, D-69120 Heidelberg

Scientific Steering Committee

Peter Albers, Nikolaus Becker, Jürgen Gschwend, Markus Hohenfellner, Markus Kuczyk

Speakers and Moderators

G. Antoch, C. Arsov, C. Bangma, M. Baumann, M. Cooperberg, S. Duensing,
H. Grönberg, U. Haberkorn, F. Hamdy, K. Herkommer, H. Hricak, F. Kohlhuber,
G. Kristiansen, H. Lilja, G. Nettekoven, M. Roobol, M. Rubin, A. Semjonow, J. Schalken,
L. Schimmöller, F. Schröder, H. Sültmann, A. Vickers

CME-accreditation

The program has been submitted to the Landesärztekammer Baden-Württemberg for accreditation.

The symposium is organized by
